# MD SADIQ HASAN ANSARI

eth.sadiq@gmail.com 08553809556 sadiq-hasan-in sadiq1402

## Experience

**Gen AI Reserach Intern** *Streamlit Link* — *IIT Ropar*
*Annam AI* — *May 2025 – July 2025*

- Developed AI model (PRAGATI-AI) to help farmers improve crop yield through Pollination monitoring.
- Applied Generative AI techniques and machine learning tools (Python, Scikit-learn, TensorFlow).
- Collaborated on data preprocessing, model development, and research documentation.

**Node.js Developer Intern** — *Vsynergize AI*
*AI Voice & Telephony Systems* — *Aug 2025 – Present*

- Designed and developed production-grade AI voice agents for real-world telephony use cases.
- Built a **Virtual Receptionist AI Agent** capable of handling **1000+ concurrent calls** with real-time speech processing and intent handling.
- Developed an **Insurance Claim Status AI Agent** that interacts with insurers, retrieves claim details, and generates structured AI summaries.
- Implemented AI-driven analysis and summarization pipelines for call transcripts using **AWS Bedrock**.
- Integrated real-time speech-to-text using **AssemblyAI** for accurate conversational understanding.
- Architected the entire system on **AWS**, leveraging **Lambda, API Gateway, SQS, and serverless microservices**.
- Designed scalable, event-driven workflows to ensure low latency, fault tolerance, and high availability.

## Skills

**Languages**: Python, JavaScript, TypeScript, SQL

**AI & Voice Agents**: Conversational AI, Real-time Voice Processing, Speech-to-Text (AssemblyAI), LLM Integration, AI Agent Design, Prompt Engineering

**Telephony & Communication**: Plivo, WebSockets, SIP Protocol, IVR Systems, Call Transfer (MPC)

**Cloud & Infrastructure**: AWS (Lambda, API Gateway, SQS, Bedrock, S3), Serverless Architecture, Event-Driven Design

**Backend Development**: Node.js, FastAPI, Express.js, REST APIs, Microservices

**Data Analysis & ML**: Pandas, NumPy, Scikit-learn, Feature Engineering, Supervised/Unsupervised Learning

**Data Visualization**: Matplotlib, Plotly, Seaborn

**Frameworks & Tools**: Flask, React.js, Vue.js, Jinja

**Databases**: PostgreSQL, MongoDB, SQLite, Redis

**DevOps & Tools**: Git, GitHub, Docker, Streamlit, Heroku, Vercel

**Soft Skills**: Problem Solving, Critical Thinking, System Design

## Education

**Indian Institute of Technology, Madras** — *Sept 2022 – March 2026*
*Bachelor's of Science in Data Science*

- CGPA: 7.41/10
